

Not your traditional
"diversity training program."

DMV Diversity & Inclusion Institute brings everyone into the definition of diversity to consider how differences in race, gender, sexual orientation, political affiliation, geographic orientation, culture, knowledge, experience and perception impact the lives of individuals and enterprises and how prepared leaders can leverage these differences in support of their organizational missions.

DMV DIVERSITY & INCLUSION INSTITUTE

Designed and facilitated by Juan Johnson, a Leadership Center faculty leader and founder and president of Diversity Leadership in Action, the DMV Diversity & Inclusion Institute brings participants together one day a month for five months. Learning experiences include case studies, scenarios and analyses and other experiential learning tools to maximize interaction and discussion among participants and facilitate productive relationships.

Program begins January 8, 2020. The full calendar and a link to apply can be found on the Leadership Center website at www.leadercenter.org.
